ACKNOWLEDGEMENTS

I am extremely grateful to my learned guide, Professor I.H. Farooqi, Chairman and Head of the Department of Commerce, Aligarh Muslim University, who very kindly consented to supervise my research. Inspite of his various engagements and busy academic schedules, he spared his precious time for me. I consider myself fortunate to complete my research under his able guidance. I am equally thankful to Professor Habibur Rehman, Dean, Faculty of Commerce for his constant encouragement and support in the preparation of this work.

I am highly indebted to my Principal, who greatly encouraged me to complete my Ph.D. During the period of completion of my research work he was kind enough to provide various facilities, enabling me to complete my work without any difficulty.

My innumerable thanks are due to my colleagues in the Department of English of the College, who helped me in giving shape to the data.

I also want to express my thanks to the College Librarian and the Library Staff, who helped me in completing the research work and the compilation of the Bibliography.

I am also obliged to my colleague Mr. S. Ishtiaq Ali, who was kind enough to check each and every table alongwith typed scripts. Without his help it would not have been possible to complete the project in time.
