ACKNOWLEDGEMENT

It gives me great pleasure to express my sincere and profound gratitude to my supervisor Dr. Sartaj Tabassum, Reader, Department of Chemistry, A.M.U., Aligarh for his invaluable guidance constant inspiration and stimulating discussions throughout my work.

I owe my particular gratitude to Dr. Farukh Arjmand for her immense help and affirmative response. Her expert opinion was a boom for the success of this work.

My sincere thanks are due to Prof. S.Z. Qureshi, Chairman, Deptt. of Chemistry, for providing necessary laboratory facilities.

I am thankful to Dr. Sudha Srivastava, TIFR, Bombay, IIT, Delhi, CDRI, Lucknow, for their help in physico-chemical data (NMR spectral studies, FTIR and elemental analysis).

Dr. Mohd. Ikram, Deptt. of Physics, A.M.U., Aligarh, deserves special thanks for e.p.r. spectral analysis.

I sincerely acknowledge with thanks the timely help, encouragement and invaluable suggestion from Prof. K.S. Siddiqui, Dr. Lutfullah and Dr. Javed Massarat.

I am particularly indebted to Dr. Harish Bahadur, Scientist E-II (NPL, New Delhi) for continued moral support, help and encouragement through the whole of this study.

I must express my deep sense of gratitude to my closest Research fellows and friends. Mrs. Shabana Aziz, Dr. Nahid Nishat, Mrs. Farah Sajjad, Ms. Fareeda Athar,
Mr. Harishankar Bhartya, Dr. S.H. Rafiqi, Mr. Aijaz Ahmad Tak, Mr. Pankaj Sharma and others for their cooperation during the entire progress of my work.

It is indeed a privilege to put on record the constant encouragements, inspiration and support I received from my parents and my sister all through my studies for their keen interest in my academic pursuits.

I am thankful to Mr. A.K. Azad for his neat and clean computer typing of my thesis with great efficiency and accuracy.

At last, I believe that what ever I achieved in my academic career is result of God's blessing.

Netra Pal Singh
