CONTENTS

CHAPTER ONE

General Introduction
References

CHAPTER TWO

Preparation, Characterization and Analytical Applications of a New Semicrystalline Ion Exchange Material: Zirconium(IV) Diethylenetriamine phosphate

CHAPTER THREE

Thin layer Chromatographic Behaviour of Some Aromatic Nitro Compounds on Zirconium Arsenate Layers

CHAPTER FOUR

CHAPTER FIVE

Preparation and Characterization of Mixed Hydrous Oxides of Al₂O₃ - ZrO₂ by Aqueous Base Diethylamine and its Adsorption Behaviour towards Diethylamine
