ACKNOWLEDGEMENT

It gives me immense pleasure in recording my indebtedness to Dr. Asif-uz-Zaman, Reader, Department of Chemistry, Aligarh Muslim University, Aligarh under whose able and inspiring guidance this work was carried out.

I am thankful to Prof. Wasiur Rahman, Chairman, Department of Chemistry, A.M.U., Aligarh for providing necessary facilities.

For the rewarding suggestion and advice given to me, I wish to express my grateful thanks to Drs. F.M. Dean, Liverpool University (U.K.), Mrs. Shakti Rais Ahmed, and K.M. Shamsuddin, Z.H. College of Engineering A.M.U., and Hafizullah Khan, Department of Research in Unani Medicine, A.M.U., Aligarh.

Words will be inadequate in expressing my sincere thankfulness to my laboratory colleagues who helped me in various ways, most of all for their cheerful companionship during the course of the work.

I wish to record my sincere thanks to Mr. Mohd Zaki who sincerely helped me in my day to day work as technician and also typed this manuscript.

Financial assistance by CCRUM (JRF) and CSIR (SRF), New Delhi is gratefully acknowledged.

(Khalida Tasneem)
