ACKNOWLEDGEMENTS

I like to express my sincere and deep sense of gratitude to Dr. S.I. Nadi for his valuable guidance, keen interest, encouragement, advice and direction throughout the period of investigations.

I am deeply indebted to Prof. A.K. Siddiqui for his help, valuable suggestions and for sorting out all difficulties at every stage of this work.

My sincere thanks are due to Prof. W. Rahman, Head, Department of Chemistry, A.M.U., Aligarh for his interest and providing necessary facilities.

I am extremely grateful to Prof. I. Husain, Drs. A. Salahuddin, K. Saleemuddin and S.M. Haque for many fruitful discussions.

Thanks are also due to Drs. A.W.K. Yusufi, M.K. Khan, S.I.K. Yusufi, Saeed Siddiqui, A.R. Khan, R. Ahmad, A.A. Wani, M.A. Baig, Abul Qasim and Bilqees Bano for their continued encouragement.

I sincerely acknowledge the friendly co-operation and salutary help from Messers S. Umar, K.T. Siddiqui, Badar A. Zaidi, Saeed Ahmad, R.S. Ahmad, N. Ahmad, A. Husain, J. Iqbal, Mrs. M. Sajid, Miss S. Malik, N. Alam, Mrs. R.J. Khan and K. Varshney.
I am thankful to C.S.I.R. (INDIA) for financial support during the course of studies.

Messrs Nabi Ahmad, Iltija Khan, Noor Mohd., Basheer Khan deserve my thanks for technical and associated help and Mr. Saleem for typing the thesis, Mr. Saleemuddin for drawing the figures.

Hana Yasmeen Rizvi
