I express my profound thanks to my research supervisor Dr. Y.C. Ratnakaram, Associate Professor of Physics, S.V.U.P.G. Centre, Kavali for his inspiring guidance and co-operation at every stage of this research work. Because of his commitment and dedication, I could complete this work successfully in time.

I am especially grateful and thankful to Prof. V. Padmanabha Sarma, former Head of the Department of Physics, S.V.U.P.G. Centre, Kavali for his encouragement and for providing necessary facilities during the period of my research work. My sincere thanks are also due to Prof. N. Prabhakara Rao, Head of the Department of Physics, S.V.U.P.G. Centre, Kavali for his help in computational work and continued support. I am very much grateful to Dr. K. Ravindra Prasad, Associate Professor of Physics and Dr. P. Sreedhar Reddy, Assistant Professor of Physics, S.V.U.P.G. Centre, Kavali for their valuable suggestions and pieces of advice given during the period of my complete research work.

I find this the right opportunity to pay my regards to Late Prof. S.V.J. Lakshman whose blessings have been an inspiration for me throughout the course of my work.

I profusely thank all the research scholars and non teaching staff of Department of Physics, S.V.U.P.G. Centre, Kavali for their moral
I also thank the authorities of S.V.U.P.C. Centre, Kavai for providing me with all facilities for the successful completion of my Ph.D. degree.

My thanks are also due to the faculty members of spectroscopy division of department of Physics, S.V. University, Tirupati, namely Prof. V. Prabhakara Reddy, Chairman, Board of Studies, Prof. L. Lakshman Rao, Prof. B Jagannada Reddy, Prof. S. Raghunath, Prof. K. Janardhanam, Dr. L.Bama Murthy, Dr. C.R. Jayasankar and Dr. A. Suresh Kumar for their help and assistance in availing the laboratory facilities.

I express my gratitude to the scientists Prof. P.N. Jagatap, Laser & Plasma Technology division, BARC, Mumbai, Prof. S.P. Venkatesh, Head, Regional Sophisticated Instrumentation Centre, I.I.T. Madras and the Dean, School of Chemistry, University of Hyderabad, Hyderabad for their full co-operation and help in recording the optical absorption spectra and other experimental work.

A special word of thanks goes to Dr. V.V. Rev. Kanth Kumari, Department of Physics, University of Hyderabad, Dr. B.V.R. Sargopal, Associate Professor, Department of Virology, S.V. University, Tirupati and Dr. Prabhakara, Department of Environmental Sciences, S.V. University for their help in recording the spectra of the glass samples.
I would like to thank Dr. N. Sivaramakrishna Rao, Principal, my fellow faculty members and also the members of the Jawahar Bharati College Committee, Kavali for their moral support and encouragement in undertaking and completing my research work. My special thanks are due to Dr. V.V. Sai Prasad, Department of Geology and Mr. Sh. Nazeer Basha, S.M. Graphic Point, Kavali for their secretarial assistance.

Finally I wish to thank one and all who have helped me in one way or other.
