ACKNOWLEDGEMENTS

It is a great pleasure to express my sincere appreciation and profound sense of gratitude to my supervisor PROFESSOR TARIQ AZIZ, CHAIRMAN, DEPARTMENT OF APPLIED MATHEMATICS, A.M.U., ALIGARH, whose valuable suggestions, able guidance and expert advice made this work possible. I am greatly indebted to him for initiating me into research work and cultivating in me a taste for the field of Numerical Analysis.

My thanks are due to PROFESSOR SHAIK MASOOD, EX-CHAIRMAN DR. AQUEEL AHMED, and other staff members in Department of Applied Mathematics for their kind advice, help and fruitful discussions and DIRECTOR, COMPUTER CENTRE, A.M.U., ALIGARH, for providing me computer facilities. My thanks are also due to MS NISWAN ALI, System Programmer for her help and useful discussions.

I am indebted to the staff at IIT, DELHI for permitting me to use the library facilities.
I am deeply indebted to my MOTHER, for giving me inspiration at every stage of my research work without her love, blessings and sacrifices I would probably not have succeeded in carrying through this project. My WIFE and SON deserve all praise and sincere appreciation for putting up cheerfully with all the inconveniences and hardships during the research work.

Finally MR. FAIZ M. KHALID deserves praise for his excellent word-processing of this thesis and I thank him for the same.
