ACKNOWLEDGEMENTS

At this crucial juncture when a research fellow has to acknowledge all those concerned with the thesis, I am finding it a bit difficult to frame a sentence in honor and praise of my supervisor, Dr. Ali Mohammad. His constant encouragement, constructive criticism, a thorough background of the subject and monumental patience made this work possible. Dr. Mohammad's contribution to my career would always be a cornerstone of my life.

I place on record my profound gratitude to Professor S.A.A. Zaidi for his unending help and support. I express my sense of indebtedness to Professor K.T. Nasim for his cooperation and moral support. My sincere thanks are due to Professor Mohammad Ajmal, Chairman, Department of Applied Chemistry, A.M.U., Aligarh, for providing all the necessary research facilities.

I wish to express my deep sense of appreciation for my parents and my aunty Mrs. K.R. Mahajan whose good wishes and sacred blessings have always been a source of inspiration in accomplishing this task.

Friends and colleagues always play a significant role, but I would like to single out Dr. Naim Fatima and Mr. Majid Khan for their invaluable help which they rendered to me, when I needed it most.

I am thankful to Mr. H.S. Sharma for his neat and tidy electronic typing of my thesis.

Finally, the financial assistance in the form of Senior Research Fellowship from the Council of Scientific and Industrial Research, New Delhi, India, is gratefully acknowledged.

(SHARAD TIWARI)
