ACKNOWLEDGEMENT

To begin I bow in reverence to the Almighty as it is indeed His blessings which led me to complete this piece of work.

It is my proud privilege to express my deep sense of gratitude and sincere thanks to my internal supervisor Prof. M Akram, Department of Botany, Aligarh Muslim University, Aligarh and my external supervisor Dr. Bire Pal Singh, Joint Director, Central Potato Research Institute Campus, Moradpuram, Meerut, India for benevolent guidance, constant, watchful interest and helpful attitude throughout the present investigation. Without them this thesis would be a dream.

I am extremely thankful to Dr. S. M. Paul Khorana, Director and Dr. G. S. Shekhawat, ex-Director, Central Potato Research Institute, Shimla for allowing me to carry out my experiments at Central Potato Research Institute, Shimla. My thankfulness is also extended to Prof. Samullah, Chairman, Department of Botany, Aligarh Muslim University, Aligarh for making me eligible to work for this thesis. It would be injustice on my part if I would not have thanked (Late) Prof. M. Wajid Khan, ex-Chairman and internal supervisor.

It is my great pleasure to record my deep sense of gratitude and indebtedness to Dr. S. K. Chakrabarty, Dr. Debasis Pattanayak, Dr. Sarkar, CPRJ, Shimla and Prof. Mohd Ans, Prof. Anil Haq Khan, Dr. Abrar, Lecturer, Department of Botany, AMU, Aligarh for their excellent guidance, meticulous supervision and healthy criticism throughout the present investigation and preparation of manuscript without which it would have not been possible to bring the thesis in present form.

I also stand obliged to all those people who worked behind the curtain with great sincerity and utmost selflessness to project a success to whom I cannot express individual gratitude. Research associateship provided by the Dept of Plant Pathology, CPRJ, Shimla is duly acknowledged.

I acknowledge Mr. H. Haq, Mr. S. Dey, Mr. K. Meetul, Mr. Chandramohan Bst, Dinesh Kumar, for extending their help whenever required.

A very special thanks to all my friends Jyot, Shashi, Kawaljeet, Dr. Qazi Fariduddin, Dr. Anwar Shahzad, Dr. E. P. Vankatsalam and Dr. Vibha.

Finally, no words can matched the emotional succor and amorous love which I got from my husband, daughter, parents, sisters, brother, father-in-law, (late) mother-in-law, brothers and sister-in-law during the entire course of my study. Their constant inspiration and encouragement helps me lot for completing this project. It was that intangible support mechanism which helped me proving myself as a devoted scholar and worthy member of concerned fraternity.

I must confess that whatever mistakes still remains in this thesis I am solely responsible for them.
