ACKNOWLEDGEMENT

The author is extremely grateful to Dr. M.S. Ahmad, who directed these researches, for his unstinted help, guidance and encouragement, to Professor A.R. Kidwai and Dr. S.M.F. Rahman for providing necessary facilities and to the Indian Council of Medical Research and the University Grants Commission for the award of research fellowships.

Thanks are also due to Professor J.N. Chatterjea (Patna University), Dr. Charles E. Moyer, Jr. (Union Carbide Corporation, South Charleston, U.S.A.), Dr. W. Rahman (Aligarh University) and my research colleagues for their help.
