The author wishes to express his gratitude to Mr. M.C. Ahmed, who directed these researches, for his unstinted help, guidance and encouragement, to Professor W. N. Hewi and Dr. A. H. F. Ahammad for providing the facilities for prosecution of the work and to University of Tasmania for the grant of study leave.

Thanks are also due to Professor J. K. Chatterjea (Patna University), Professor W. Klyne (London University), Dr. Charles E. Moyer, Jr. (Union Carbide Corporation, South Charleston, W. Va.), Dr. H. A. Abraham (Chicago University), Dr. W. Rahman (Aligarh University) and my research colleagues for their help.
