ACKNOWLEDGEMENTS

I am indebted to my supervisor Dr. Riyazuddin, whose kindness and proper guidance, as well as his academic experience have been invaluable to me in the completion of this thesis in numerous ways.

I am extremely grateful to Professor Nurul Islam, Ex-Chairman, Department of Chemistry, A.M.U., Aligarh, for providing me all help to shape and clarity of the thesis.

I extend my sincere thanks to Professor Kabir-ud-Din, the Chairman, Department of Chemistry, for providing me all the necessary facilities during the course of research and to Professor (Mrs.) Bilquis N. Waris and Dr. (Mrs.) Saeeda Naqvi for their sympathetic attitude extended to me.

I have no words to express the gratitude to my parents, Shri Rajpal Gupta and Smt. Mithlesh, who have been a constant source of emotional and moral support during my whole research endeavour.

I would like to thank Mr. Dheeraj Kumar for his encouragement and help at the most fundamental level in the struggle for achieving my target and to Ms. Riffat Basharat for her cooperation and generous support.

The informal support and encouragement of my lab colleagues and many friends have been indispensable, and I would like to acknowledge the contribution particularly of Mr. Naseem Ahmad, Mr. Jaipal Singh, Ms. Sheetal Sharma, Ms. Afia Badar, Ms. Suboohi, Ms. Amodini and Mr. Raj Kumar.

I am also thankful to Mr. Kafeel A. Khan who painstakingly typed my manuscript.
