Each individual creature on this beautiful planet is created by Allah to fulfill a particular role. Whatever I have achieved in life till now is through his help and is an expression of his will. His grace on me showed through some outstanding teachers, colleagues, friends and family members. When I pay my tributes to these noble people, I’m merely praising his glory.

I feel privileged in expression of my deep gratitude to my internal supervisor Prof. Qayyum Husain, Department of Biochemistry, A.M.U., Aligarh, whose constant enlightened guidance, encouragement, untiring help, and the kindness which he always bestowed on me have paved way for the successful completion of this endeavor. It may not be an exaggeration to say that without his helping attitude, innovative ideas and moral support it was impossible to carry out this work.

I fail to gather words to express my deep sense of gratitude and heartfelt gratefulness to my external supervisor Dr. Devendra Parmar, Head, Developmental Toxicology Division, IITR, Lucknow, a researcher of an incomparable power of observation and a person of profound intellect. His creative and expert guidance, constant encouragement, incessant discussion, attention to detail untiring help, and the kindness which he always bestowed on me have paved way for the successful completion of this endeavor. His deep patience, caring ways and humane nature have gone a long way in helping me to achieve my goal.

I also express my thanks to my former internal supervisor Dr. Riyaz Mehmood, Department of Biochemistry, A.M.U., Aligarh, for tremendous support and guidance from him throughout the study.

I gratefully acknowledge with thanks Prof. Gourdas Choudhuri, Head, Department of Gastroenterology, Sanjay Gandhi Post Graduate Institute of Medical Sciences (SGPGI), Lucknow, India for providing me blood samples of cirrhotic patients. Without his co-operation the work would not have reached its present form.

I also express my genuine thanks to my Chairman, Prof. S. M. Hadi, Department of Biochemistry, A.M.U., Aligarh, for all his support. I personally thank all the teacher of my department for their encouragement.
Acknowledgement

I shall remain ever grateful to Dr. Ashwani Kumar, Acting-Director, IITR, Lucknow, for giving his kind approval to carry out my research work at this institute.

With sincere reverence, I am thankful to the former directors of IITR, Lucknow, Dr. P.K. Seth, Dr. Y.K. Gupta and Dr. C.M. Gupta, for providing all the necessary facilities required for the present work.

I feel fortunate to be associated with Dr. V.K. Khanna, Scientist, IITR, Lucknow for his ever-willing help, support and encouragement throughout the study. It is mentionable that his practical advice and a good sense of humour made the lab a pleasant place to work in.

My special thanks goes to Dr. Alok Dhawan, Dr. V.P. Sharma, Dr. M.P. Singh, Dr. A.B. Pant and Dr. S. Yadav of the Division without whose cooperation this work would not have been possible.

I feel privilege in expressing my gratitude to Dr. A.K. Aggarwal, Emeritus Scientist and former Head, Developmental Toxicology Division, IITR, Lucknow, for providing positive attitude and necessary help to achieve my goal.

I am glad to place on record my thanks to all worthy colleagues and friends, Ashu, Parag, Arvind, Madhu, Munindra, Madhu Lata, Sunistha, Amit, Saurabh, Ajay, Rajesh, Shikha, Ankita, Nilay, Yogendra, Anshuman, Rajendra and late Yogesh.

My thanks are also due to Mr. B.S. Pandey and Mr. Rajesh Mishra for their technical assistance and Mr. Alok for his help in day-to-day works of the lab.

Special thanks are also due to Mr. Mohd. Aslam for his kind help in computer related work.

I am also thankful to Indian Council of Medical Research, Council of Scientific and Industrial Research, New Delhi for their financial support and to all the patients and controls that have been enrolled and participated in my study to make it a fruitful event.

This thesis would not have been possible without the support of my father and mother. They have a tender loving heart and exceptional academic and managerial skills from whom I have learnt a lot. I am grateful indebted, for all the love and support they have provided me throughout my life. I certainly owe a great debt of gratitude to my Uncle Mohd. Ibrahim and aunt for their encouragement, blessings besides love and affection bestowed on me.
Words will be inadequate to express thanks to my brothers Akhtar, Shahid, Azwar, Irfan and sister Saba who contributed significantly with their love, affection and moral supports. I also thank my grandfather, grandmother, for their abundant affection, source of inspiration and depth of love without which achieving this goal would have been a much difficult task.

I whole-heartedly extend my deep sense of appreciation to my loving wife Shamima for her fabulous moral boosting and constant encouragement that inspired me to persuade and realize my dream.

And last but not the least to my loving son Ayaz who really added the new blood in my life, which energize me in completing the thesis.
