Acknowledgement

I am taking this opportunity to thank individually, all those who have assisted me in one way or the other with my Ph.D thesis.

The first person I would like to thank is my direct supervisor Prof. Bilquis N. Waris. I owe her lots of gratitude for having me shown this way of research. She could not even realize how much I have learned from her.

I am grateful to Prof. (Mrs.) Arunima Lal (Chairperson), Dr. Riyazuddin and Dr. Saeeda Naqwi, Department of Chemistry, Aligarh Muslim University for solving my research problems. I would like to thank Prof. Saleemuddin (Chairman), Dr. Rizwan, Department of Biotechnology, Aligarh Muslim University, India for his generous help in obtaining the various data.

I thank the staffs at instrumentation centre of my department for giving me access to obtaining immense spectral data. Thanks also go to the computer centre and the Maulana Azad Library of the Aligarh Muslim University, India for help in accessing the online journal facilities.

I would be failing in my duties if I don’t mention the names of my laboratory colleagues Dr. Ghanendra Kr. Bansal, Dr. Dheeraj Kumar and Ms. Afia Badar for their co-operation and help. I also like to
express my gratitude to Dr. Hariom Kr. Sharma, Mr. Vikas Bhardwaj, Mr. Mohd. Azam for creating friendly atmosphere to work in and all time support.

Special thanks to Mr. Sarfraj Nawaz and Mr. Santosh K. Upadhyay, Department of Chemistry, Aligarh Muslim University, Aligarh for his valuable suggestions and generous help to bring out this thesis.

I feel a deep sense of gratitude for my late Mom who formed part of my vision and taught me the good things that really matter in life. The happy memory of my Mom still provides a persistent inspiration for my journey in this life. I am grateful for my father Dr. R. C. Lal Haridwari and for rendering me the sense and encouragement and moral support throughout. I am greatly indebted for my uncles and my brother Mr. Lokesh, for his love and patience during the PhD period.

The chain of my gratitude would be definitely incomplete if I would forget to thank the first cause of this chain, using Aristotle’s words, The Prime Mover. My deepest and sincere gratitude for inspiring and guiding this humble being.

Jaipal Singh Haridwari,
June, 2007
Aligarh, India.
