CONTENTS

Abstract

Chapter 1  Review

Chapter 2  Synthesis and Characterization of 18-Membered Unsymmetrical Dinucleating [Ni] Macrocycle i.e. [L^1.2HClO₄] and 26-Membered Unsymmetrical Dinucleating [Ni₂] Macrocycle i.e. [L^2.2HClO₄]

Chapter 3  Reactivity of [L^1.2HClO₄] and [L^2.2HClO₄] towards Metal Salts and their Derivative Complexes

Part-B  Synthesis and Characterization of complexes of 18-Membered Unsymmetrical Dinucleating [Ni] Macrocycle i.e. [L^1.2HClO₄] and 26-Membered Unsymmetrical Dinucleating [Ni₂] Macrocycle i.e. [L^2.2HClO₄] with Group 12 Metal ions: Encapsulation of Zn²⁺, Cd²⁺ or Hg²⁺ ions.

Part-C  ^⁵⁷Fe-Mossbauer Spectroscopic Investigations of Fe³⁺ Complexes of L^1.2HClO₄ and L^2.2HClO₄

Chapter 4  Electrical and Electrochemical Investigations of the Bimetallic Complexes of the Macroyclic Ligands.
