ACKNOWLEDGEMENTS

In the name of Almighty Allah, the most beneficent and merciful.

It is indeed a great pleasure to put on record my profound sense of gratitude and indebtedness to my esteemed teacher and supervisor Dr. Jawaid Iqbal of whom I have always been an ardent and silent admirer. Were it not for his benevolent supervision, unparalleled knowledge of the subject, affectionate encouragement admired with sincere criticism and meticulous attention to details, it would have been impossible for the present work to have taken this form. I sincerely acknowledge that it is from him that I am learning the virtues of dedication, hard work and unrelenting search for knowledge and for this I shall remain ever grateful.

I express my heartily thanks to Prof. Masood Ahmad Chairman, Department of Biochemistry for providing necessary facilities. I am grateful to Prof. M. Saleemuddin, Prof. S.M. Hadi and to all the teachers of the department for their valuable suggestions, source of inspiration during this work.

I am deeply grateful to Atia Aapa, Mansoor Bhai, Athar Bhai, Sabiha Aapa, Samina Aapa, Sadaf Aapa, and Hina Aapa for their cooperation and help.

Feeling of thankfulness cannot be expressed in words, which I owe to Pawan who took time off from his busy schedule to help me in my hour of need.

To Sonali, who for years has stood by me in all my pains and pleasure whenever I am distressed or confused. She is the one who always consoled me and always helped me. The quotation 'friend in need is a friend indeed' stands true for her.

I am equally thankful to Amjad, Shahid, Kashif, Suhail, Arshi, Kaleem, Moyad, Tariq, Sandeep, Arivarshu, Asfar and Azhar for their help which is inexplicable.

To sonish, Naghma, Kakhaskan, Fauzia, Riffat, Sheema, Shamila, Eram, Yasha, Asma and Safia for their love and understanding.

A token of thanks to Aabgeena for her support and timely help.

I owe my special thanks to Abid, Shahid, Shahvez, Sabir as they never hesitated in giving me help and their cooperation. It would be very unfair and undesirable if I don’t mention the name of Aurangzeb sb, Umar Bhai, Mr. Surendra Kumar, Mr. Waseem Khan, Mr. Ansar, Mr. Saleem and Mrs. Shahnaz for their cooperation and technical support.
My research owns its deepest gratitude to my father and mother whose sacrifices, love and prayers are the driving force behind my success. I owe them a great deal from the depth of my heart for their patience; moral support and stimulating interest in the perusals of my research endeavor.

Thanks to my brother Nadeem whose well wishes have enabled me to transform my dreams into reality. I must acknowledge my grandmother for her stay, love and cooperation when my parents were abroad.

Thanks are due to Rustam for his timely help.

Financial assistance from the Council of Scientific and Industrial Research, Govt. of India, is thankfully acknowledged.

Date: 27/12/2K2
