Acknowledgement

First of all I would like to thank, Allah, the almighty, because of whose help only the work which was simply an idea a few years back, has become a reality now.

I wish to express my deep sense of gratitude and highest appreciation to my supervisor Dr. M. Saleem, Reader, Department of Applied Mathematics, Aligarh Muslim University, Aligarh, whose able guidance, expert advice and whole hearted encouragement made this work possible. I am highly indebted to him for initiating me into research work and cultivating in me a taste for the field of Mathematical Modelling.

My special thanks are due to Prof. M. Mukhtar Ali, Chairman, Department of Applied Mathematics, A.M.U., Aligarh, for the encouragement and providing necessary facilities throughout research period.

I am thankful to Prof. Tariq Aziz, Prof. Aqeel Ahmad, Prof. Mumtaz A. Khan, Dr. Merajuddin and Dr. Aijaz A. Khan, Department of Applied Mathematics, A.M.U., Aligarh, for their help and advice.

I am also thankful to Mr. Mirza Faisal Beg and Mr. Nadeem Hasan, Department of Mechanical Engineering, A.M.U., Aligarh, for their help in computer simulations.
No words are enough for my elder brother Mr. Abdul Razzaq Sadiyal whose whole hearted support and encouragement has played an outstanding role in completion of this work. My heartfelt thanks are due to my mother and other members of the family who gave me immense moral support during various stages of the study.

In the end I would like to take this opportunity to express my gracious gratitude towards all those people who have in various ways helped me in making this work an éclat.
