ACKNOWLEDGEMENT

I am highly grateful to Dr. Firoz Mohammad who inspired me to work in the fascinating field of plant physiology. His guidance, continued interest and valuable suggestions are highly appreciated.

I express my heartfelt gratitude to Prof. M. M. R. K. Afridi who encouraged me from time to time during the preparation of this manuscript.

Thanks are due to the Chairman, Department of Botany, Aligarh Muslim University, Aligarh for providing necessary laboratory and field facilities.

I shall remain indebted to Prof. Samiullah, Prof. Arif Inam, Prof. Aqil Ahmad, Dr. M Masroor A. Khan, Dr. Nafees A. Khan and Dr. Shamsul Hayat for helping me in various ways.

I also acknowledge with thanks the assistance given from time to time by Mr. Mohd. Naeem, Mr. Mohd. Nasir Khan, Mr. Mohd. Faisal, Ms. Shaheena Afroz and Mohd. Hasan.

Special mention must be made of my respected parents, brothers and sisters for their constant moral support at every stage of my work. My late uncle Mr. Nazrul Haque Siddiqui deserves my gratitude for his encouragement in his life time.

Last but not least, I am thankful to the Head, Division of Plant Genetics, Indian Agricultural Research Institute, New Delhi and the Head, Department of Genetics, National Research Centre on Rapeseed-Mustard, Bharatpur, Rajasthan for generous supply of authentic seeds of rapeseed-mustard.

(Manzer Hussain Siddiqui)
