Acknowledgement

In the name of Allah the most beneficent and most merciful

In the process of discovering, working and studying a few remarkable aspects of science, I came across a whole new plethora of emotions, a gamut of ideas and whole a new concept of human relations. The concept that my PhD work is also a period of great understanding and remarkable support from people around me.

I am indebted to my supervisor Dr Naheed Banu, Dept of Biochemistry, A. M. U. Aligarh, who guided me all along, her support and encouragement inspired me to move ahead so much so that I was able to overcome all obstacles in a jiffy. Those wonderful discussion and sessions with her would remain embedded in my memory forever.

My heartful thanks to the Chairman, Prof M. Saleemuddin, Dept of Biochemistry, A. M. U. Aligarh for providing all the necessary facilities for my work, I am grateful to him for his support and encouragement.

My sincere thanks to all the teachers specially Prof S. M. Hadi, Prof Masood Ahmed, Prof A. N. K. Yusufi who advised and pushed me forward.

My heart goes out to Dr Fakim H. Khan for his painstaking efforts at proofreading and discussion of my work and related problems was like some cool breeze in my otherwise deserted and hot environs.

My special thanks to Suhail Akhtar who brought so much liveliness, enthusiasm and laughter in the unusual ennui of the lab. Those scooter rides, lab pranks and dhaba chai with him would remain close to my heart. He splashed multifarious colors in my black and white ambience.

My friends Dr Tariq Al-Qirim and Dr Moyad Shakwan deserve special mention for their support and comradeship. They made life so much easier and merry in the lab.

I am grateful to Ayesha, Irfana and Aiman for their great understanding and wonderful support for me.

I am also indebted to my other lab colleagues, Dr Sonish, Dr Arshi, Dr Pawan, Shahid, Amjad, Arryarsu, Riffat, Fozie, Kehkashan, Sheema, Shubha, Medha, Sadia, Yasha, Sahar, Shamil, Deeba, Medha, Toshiba, Mehreen, Sabika and Eram for their thoughtfulness and help in various ways during my research.

My special thanks to Sarmad, Asfar, Sandeep, Showket and Ausaf for their cooperation and enlivened me every moment.

I am also indebted to Samina Wasi and Kaleem for their wonderful companionships.
I am grateful to Tashfeen, Abdul, Khalid, Khalid Khan and Nadeem for sprinkling so much favor and liveliness in and around me.

My sincere thanks to the non-teaching staff of Biochemistry Department, Surender Bhai, Wasin Bhai, Ansar, Qadir, Shahenshah Bhai, Zubert Bhai and Shahnaz Madam for their cooperation.

Words fail to express my in-depth feeling for my friend, Dr Nasrul Hoda for his consistent inspiration, wonderfully helpful and supportive.

My heartfelt thanks to Hidal Ahmad (Munna) for his constant support during my thesis work.

Life and work would have been impossible but for the dreaming chais’ at Tassavur’s Dhaba. It became the center for heartfelt laughter, some fun and frolic. A great place to be with friends.

I am also indebted to my entire family for being so patient with me. I am especially grateful to my mother and father who bore with my abnormal schedules so patiently and supported me in their own little ways.

There has been a grief too, when I missed you respected elder brother. He has always been with me and will always be with me. This work is a tribute to my late brother who has been my inspiration all along.

I would like to mention ScienceDirect without which a lot of my work would be impossible.

Finally I am grateful to the Department of Biochemistry for considering me worthy enough for the Departmental Scholarship.

S. M. Kashif Rais Zaidi
