ACKNOWLEDGEMENTS

I wish to express my sincere gratitude to my supervisors, Late Prof. M. Wajid Khan and Dr. Aqil Ahmad, Reader, who inspired me to initiate this research work. Their sagacious, skilful guidance and overall supervision proved very valuable.

I am grateful to Prof. Samiullah, Chairman and to Prof. Saeed A. Siddiqui, former chairman, Department of Botany for providing me the necessary facilities.

I am very grateful to my father and teacher, Prof. Ziauddin A. Siddiqui, who always encouraged me to do creative work. His constant encouragement made me to fulfil this work.

Thanks are also due to my teachers Drs. Irshad Mahmood, S.Q.A. Naqvi, Hisamuddin, Abrar A. Khan and Zaki A. Siddiqui.

I have no words to express my heartiest thanks to Dr. Shamsul Hayat for his noble guidance and kind help throughout the research work.

Fortunately, I am blessed with a galaxy of sincere and adoring colleagues and friends namely Ms. Musarrat Jabeen, Dr. Badshah Khan, Dr. Anwar Shahzad, Dr. Naghma Abbasi, Ms. Tabassum Usmani, Ms. Sehba Masood, Ms. Shamim Ajaz, Mr. Peter Lamabam Singh and Ms. Era Upadhyay.

The moral support, help and encouragement rendered by Mr. Imran Ghani also deserves special mention.

I place on record sincere and hearty thanks to my parents, brothers (Faisal and Tauseef), sister (Fauzia) and other relatives whose moral support, encouragement, forbearance and affection sustained me during the period of this research work.

The award of the Junior Research Fellowship by the Aligarh Muslim University, Aligarh is also gratefully acknowledged.

Finally, I beg to express my gratitude, thanks, appreciation and indebtedness to the Almighty God for providing and guiding all the channels to work in cohesion and coordination which made my study possible.

(SHAZIA SIDDIQUI)
