ACKNOWLEDGEMENTS

I wish to take this opportunity to record my deep sense of gratitude to:

Dr. Santha Devi, Scientist, NBRI, Lucknow and Dr. Ziauddin Ahmad, Reader, Department of Botany, Aligarh Muslim University, Aligarh, for suggesting me the problem and providing constant guidance throughout the term of preparation of this thesis.

Dr. T. N. Khoshoo, Secretary, Department of Environment, Government of India (Former Director, NBRI, Lucknow) for initiating interest in the problem of environmental aspects of pteridophytes.

Dr. P.V. Sane, Director, NBRI, Lucknow for providing facilities and encouragements.

Dr. Zafar Jamil, Allergy Clinic, Department of Tuberculosis, K.G. Medical College, Lucknow, for guidance and encouragements in the allergy studies.

Dr. P.K.K. Nair, Deputy Director, NBRI, Lucknow for lending the slides from different centres through All India Co-ordinated Project on Aerobiology and showing keen interest in this work.

Department of Environment, Government of India for granting a fellowship for the completion of this work.

Dr. Ravi Shanker, Scientist, ITRC, Lucknow for help in dermal patch testing and histopathological studies.
Dr. P. N. Viswanathan, Scientist, ITRC, Lucknow for his suggestions and help from time to time.

Dr. Surjit Kaur, Head, Pteridology Lab., NBRI, Lucknow for the kind cooperation and encouragement.

Dr. Prakash Chandra, Dr. Subhash Chandra, Dr. P.B. Khare, Mrs. F. Raza, Mr. Jaswant Singh and Mr. Lalita Tewari of the Pteridology Laboratory for the help rendered to me in various ways.

Dr. K. J. Ahmad, Mr. V.K. Lal and Mr. A.K. Dwivedi for help in Scanning electron microscopy and Mr. T.K. Sharma for photography.
