ACKNOWLEDGEMENTS

I express my profound gratitude to Dr. K.C. Varshney, Reader, Department of Applied Chemistry, Aligarh Muslim University, Aligarh for his excellent guidance, constant support and trust throughout the course of this study. Prof. M. Ajmal, Chairman of the department is thanked for his keen interest and for the research facilities.

Dr. A.A. Khan, Lecturer in the department has been very helpful and cooperative during the whole tenure of my research, for which I am highly grateful to him.

I also express my deep appreciation to Dr. Sanjiv Mohan for his most valuable help and constant encouragement during this work.

I am short of words to express my infinite gratitude to my parents for their benedictions and untiring support during the entire period of my studies.

My all friends and lab.colleagues also deserve thanks and appreciation for their scientific discussions.

Finally, I am grateful to the U.P. Council of Science and Technology, Lucknow and the Council of Scientific and Industrial Research, New Delhi for the financial assistance awarded to me during these studies.
