ACKNOWLEDGMENTS

I wish to express my profound gratitude to Prof. M. Saleemuddin, Chairman, Department of Biochemistry, Faculty of Life Sciences, of this university for his excellent guidance, constant support, trust, his persistent interest and generous availability of research facilities. But for his keen interest and encouragement, the present dissertation would not have seen the light of the day.

I am highly grateful and indebted to Prof. A. M. Siddiqi and Dr. Fasih Ahmad for their fruitful advice, cooperation and encouragement throughout the course of this study.

My sincere thanks are due to Prof. S. M. Hadi, Drs. A. N. K. Yusafi, Mrs. B. Bano, Miss Imrana Naseem, Qayyum Husain and Riaz Mahmood for their valuable suggestions.

A token of deep appreciation to Prof. Rashid Ali, Drs. Javed Musarrat and Tariq Khan, Messrs. Pasha, Najmul Islam, Naushad Ali Siddiqui, and Javed who helped me most to say the least. My sincere thanks to all my laboratory colleagues for their friendly cooperation needed utmost for congenial research atmosphere.

My special thanks to Drs. Shakeel Rizvi, Naeem and Shamshad of the Blood Bank, J. N. Medical College Hospital for providing fresh and outdated human blood for this study. Thanks are also due to Mr. John for his help.

I am delighted to record my deep appreciation for my brother Dr. Shahid Jameel who has always been a constant and unfailing source of encouragement and help.

I am also thankful to Mr. S. A. A. Hashmi and Dr. S. W. A. Naqvi for their generous help.
My special thanks are due to Dr. Aleem Siddiqui of University of Colorado Medical Centre, Denver USA for the kind gift of phospholipids and fatty acid standards and Silica Gel H.

Thanks are due to Drs. Mrs. Shabana I.Khan and Miss Rana Zaidi and also to Ms. Zehra Rehana, Rekha D. Gupta, Veena Chauhan, Tauseef Zehra, Mana Mirza and Shabana Islam, Messrs. Shahid Husain and Adil Anwar and Mrs. Farah Husain for their caring companionship and gratuitous help given.

The assistance of Central Photography Unit of Faculty of Medicine is gratefully acknowledged.

The financial assistance of Indian Council of Medical Research, New Delhi in the form of Junior and Senior Research Fellowships is gratefully acknowledged without which this study would not have been possible.

The expert word processing of this thesis by Mr. Sabir Ali deserves a word of praise. I also thank all the non-teaching staff of this department especially Messrs. S. A. Zubairi and Saleem.
