ACKNOWLEDGEMENTS

It is a privilege for me to record my deep sense of gratitude to Prof. B.K. Bachhawat for his guidance, moral support and encouragement through out this investigation.

I especially thank Prof. A.M. Siddiqui and Prof. A. Saleemuddin, Department of Biochemistry, A.M.U., Aligarh, for their interest and cooperation.

I am deeply indebted to Dr. Asis Kumar Sarkar for his help, cooperation, moral support, companionship and constructive comments received from him in times of need during the entire course of this investigation.

I am thankful to Prof. U.N. Singh, Department of Biophysics, UDSC for stimulating discussions and all faculty members of the Department of Biochemistry for their cooperation.

I am grateful to Dr. C.M. Gupta, CDRI, Lucknow for his help in performing the toxicological studies.

I would like to express my thanks to Dr. Dinkar Sahai and Miss Mona Moonis for careful reading of the manuscript.

I am thankful to all my lab colleagues of Biochemistry Department for their cooperation.

I am extremely grateful to Miss Poonam Mehra for excellent typing.

I thank all the technical staff Department of Biochemistry and especially Mr. Subrata Ghosh for his constant help during the course of this work.

I thank Prof. Daljit Singh (Rtd.Sr.Scientist. Indian Agricultural Research Institute, New Delhi) for his help in statistical analysis.

The financial support provided by Indian Council of Medical Research, Department of Biotechnology and Council of Scientific and Industrial Research, India, is gratefully acknowledged.
