

ACKNOWLEDGEMENT

The author takes the opportunity to express his sincere gratitude to Dr. K. S. Siddiqi, M.Sc., Ph.D. (Alig) for his keen interest in this work and valuable suggestions in the interpretation of the results.

He is particularly grateful to Professor S. A. A. Zaidi, M.Sc. (Alig), M.A., Ph.D. (Toronto) A.R.I.C., for his sympathetic behaviour and constant encouragement and to Professor W. Rahman, Head, Department of Chemistry, Aligarh Muslim University, Aligarh, for generously providing the research facilities. He is also very grateful to his colleagues for their kind cooperation.

Financial assistance from the University Grants Commission, New Delhi, is gratefully acknowledged.

(Mansoor Ahmad Neyazi)
