X. PUBLICATIONS/PRESENTATIONS:

1. Studies on the hypolipidemic and hypocholesterolemic effect of 3-hydroxy-3-methylglutaric acid in rabbits
Atherosclerosis (In Press).

2. Lipid composition of the filarial parasite Setaria cervi
Afzal A. Ansari, A. N. K. Yusufi and M. Siddiqi (1973)
J. Parasitology 59, 939.

3. In vitro and in vivo effect of 3-hydroxy-3-methylglutaric acid on rat liver enzymes
A. N. K. Yusufi and M. Siddiqi (1973)
Presented at the annual meeting of the society of Biological Chemists (India) held at Mysore between October 31-Nov. 2.

4. On the effect of 3-hydroxy-3-methylglutaric acid on glucose-6-phosphate dehydrogenase and malic enzyme
A. N. K. Yusufi and M. Siddiqi (1973)

5. Hypolipidemic and hypocholesterolemic effect of 3-hydroxy-3-methylglutarate in rabbits fed on an atherogenic diet
Ahad A. Khan, Sajid Umar, S. Y. Khan and M. Siddiqi (1972)
Biochem. J. 128, 41F.

6. Effect of long term administration of 3-hydroxy-3-methylglutaric acid on serum lipids
Ahad A. Khan, S. Y. Khan, Sajid Umar, and M. Siddiqi (1971)
Presented at the Joint Convention of Chemists held at Bombay between October 31-Nov. 2.

7. Mode of 3-hydroxy-3-methylglutaric acid
Ahad A. Khan, Sajid Umar and M. Siddiqi (1970)
Presented at the annual meeting of the Society of Biological Chemists (India) held at Aligarh between December 26-28.
