List of Figures

Fig 1.1 A typical electrical distribution system ........................................... 2
Fig 1.2 Typical distribution channel for LV switchgear in India .......................... 6
Fig 1.3 Typical supply chain of LV switchgear manufacturer ........................... 6
Fig 2.1 Details of an electronic value chain .................................................... 14
Fig 2.2 Theory of Reasoned Action ................................................................. 19
Fig 2.3 Theory of Planned Behaviour .............................................................. 20
Fig 2.4 Technology Acceptance Model ........................................................... 21
Fig 2.5 Extension of Technology Acceptance Model........................................... 23
Fig 3.1 Model of SAP – LAP for LV switchgear industry .................................. 32
Fig 3.2 SAP – LAP Framework of Questionnaire for Distributors ...................... 46
Fig 3.3 Synthesis of the Case Study ................................................................. 52
Fig 4.1 Conceptual Model for factors impacting of adoption of internet ............... 59
Fig 4.2 Conceptual Model of Benefits of Adoption of Internet ......................... 60
Fig 4.3 Path Diagram for Adoption of Internet ................................................ 62
Fig 4.4 Path Diagram for Benefits of Adoption of Internet ............................... 63
Fig 5.1 Research Plan ......................................................................................... 65
Fig 6.1 Measurement Model for Adoption of Internet ...................................... 86
Fig 6.2 Measurement Model for Enablers ......................................................... 88
Fig 6.3 Measurement Model for Motivators ..................................................... 89
Fig 6.4 Measurement Model for Order Entry Benefits ..................................... 91
Fig 6.5 Measurement Model for Enhanced Order Execution Capability ............. 92
Fig 6.6 Measurement Model for Improved Working Capital Management .......... 94
Fig 6.7 Measurement Model for Improved Responsiveness .............................. 95
Fig 6.8 Structural Model for Factors effecting Adoption of Internet ................. 97
Fig 6.9 Structural Model for Benefits of Adoption of Internet .......................... 99
