LIST OF FIGURES

Figure 3.1 Drain showing the pumping of wastewater at the local farmer's field on the outskirts of Aligarh city from where the wastewater was collected. 45

Figure 3.2 Local farmer's field on the outskirts of Aligarh city where wheat was also grown besides other crops under wastewater irrigation. 46

Figure 5.1 Linear regression between leaf area and photosynthetic rate of Experiment I. 163

Figure 5.2 Linear regression between total carbohydrate content and photosynthetic rate of Experiment I. 163

Figure 5.3 Grain yield and protein content of wheat as affected by nitrogen along with water treatments. 163

Figure 5.4 Linear regression between leaf area and photosynthetic rate of Experiment II. 166

Figure 5.5 Linear regression between total carbohydrate content and photosynthetic rate of Experiment II. 166

Figure 5.6 Grain yield and protein content of wheat as affected by phosphorus along with water treatments. 166

Figure 5.7 Linear regression between leaf area and photosynthetic rate of Experiment III. 170

Figure 5.8 Linear regression between total carbohydrate content and photosynthetic rate of Experiment III. 170

Figure 5.9 Grain yield and protein content of wheat as affected by potassium along with water treatments. 170

Figure 5.10 Linear regression between leaf area and photosynthetic rate of Experiment IV. 174

Figure 5.11 Linear regression between total carbohydrate content and photosynthetic rate of Experiment IV. 174

Figure 5.12 Grain yield and protein content of wheat as affected by NPK along with water treatments. 174
