ACKNOWLEDGEMENT

I take this opportunity to express my deep sense of gratitude to my supervisor Dr. Mohammad Din Khan, Lecturer, Department of Applied Mathematics, Faculty of Engineering & Technology, Aligarh Muslim University, Aligarh, who has been an unfailing source of inspiration throughout the preparation of this thesis. Despite his tight and busy academic and administrative schedule, he took special interest and devoted his time during my Ph.D. programme.

Thanks are due to Prof. Aqeel Ahmad, Chairman, Department of Applied Mathematics, Faculty of Engineering & Technology, Aligarh Muslim University, Aligarh, for providing me all the facilities available at his disposal in the department. He has always been inspiring me by discussing my problems and giving valuable suggestions in the preparation of this thesis.

My parents, despite their financial constraints, have joyfully borne the brunt of providing me the necessary wherewithal to carry on my studies. The present thesis is nothing but an encapsulation of their blessings, especially my mother who has been a source of constant inspiration to me at every stage during my research work without her love, blessings and sacrifice, this work could not be completed.

I also express my gratitude to my sister Mrs. Noopur Dixit and her husband Mr. Neeresh Dixit, who not only encouraged but also inspired me throughout my studies without whose moral support and constant inspiration, this work could not be completed.

I express my indebtedness to my sisters Ms. Shweta Bharadwaj and Ms. Mrinali Bharadwaj for their moral support without whose endurance and cooperation, it would have not been possible for me to devote all my time for the completion of this exposition.
Thanks are due to my brothers Major Love Kumar Sharma, Major Kush Kumar Sharma, Dr. Sharad Kumar Sharma, (Late) Engineer Hemant Kumar Sharma and their respective wives Mrs. Amita Sharma, Mrs. Vandna Sharma, Mrs. Shailja Sharma, Mrs. Roli Sharma, who have been a constant source of inspiration throughout my studies as a research scholar without whose encouragement and moral support, this work would have not been done so gracefully.

Special thanks are due to Mr. Suresh Chandra Sharma and Mrs. Punita Sharma, Inspector Murari Lal Chaudhary and Mrs. Laxmi Chaudhary, Master Tanmay and Baby Twesha and Inspector N.K. Maharaj, who not only encouraged but also inspired me throughout my studies without whose moral support and constant inspiration, this work could not be completed.

I have the opportunity to mention the names of Dr. M. Imdad, Reader, Department of Mathematics, Faculty of Science, Aligarh Muslim University, Aligarh, for his helpful suggestions and stimulating discussions.

My thanks are due to Mrs. Niswan Ali, System Programmer, Department of Applied Mathematics, Faculty of Engineering & Technology, Aligarh Muslim University, Aligarh, for her help and useful suggestions.

However, I must take full responsibility for any typing errors, inconsistency and omissions.

Last but not the least, I gratefully acknowledge the efficient and careful typing work of Mr. Hamendra Kumar Sharma.

(Rahul Bharadwaj)
