ACKNOWLEDGEMENTS

I feel privileged in expressing my profound sense of gratitude and indebtedness to Dr. Bahar A. Siddiqui, Reader, Department of Botany, Aligarh Muslim University, Aligarh for suggesting the problem on which this work was carried out. He and his virtues will forever be a guiding source in my life.

I am thankful to Professor Khalid Mahmood, Chairman, Department of Botany, A.M.U. Aligarh for providing the research facilities.

My heartfelt thanks are also due to Dr. M. Iqbal, F.L.S., Reader, Department of Botany for his kind encouragement and giving valuable suggestions in relation to the manuscript.

I am equally thankful to Dr. Irfan A. Khan, Nawab Shah Alam Khan, Centre of Post-Graduate Studies and Research, Hyderabad and Dr. Anwar Nasim, Division of Biological Sciences, National Research Council, Ottawa, Canada for their sympathetic attitude and constructive suggestions.

Thanks are also due to my friends, Mr. M.B. Siddiqui, Mr. M. Imran Khan, Mr. M. Abdul Fazal, Mr. Rishi Kumar, Dr. M.R. Khan, Dr. S.B.I. Zaidi and my lab. colleague Mr. Abdul Salam, C.M. for their manifold help, cooperation and critical suggestions during the course of study.

I want to extend my grateful thanks to Mr. Moinuddin Khan and Dr. M.A. Quadri for helping me on several occasions.
I wish to express my thanks to my brother, Mr. Waliullah Khan, for his help in ever so many ways throughout.

Finally, my humble feelings of gratitude are to my parents who kindled the flame of learning in me and to whose encouragement, affection and sacrificial devotion I ascribe all my successes.

The award of Senior Research Fellowship by C.S.I.R., New Delhi is also gratefully acknowledged.

(SAMIULLAH KHAN)
