List of Tables

Table A: Major chemotherapeutic agents responsible for oral mucositis

Table B: Factors responsible for oral mucositis

Table C1-3: Various scoring systems used to assess oral mucositis

Table D: World Health Organization Oral Toxicity Scale

Table E: National Cancer Institute- Common Toxicity Criteria

Table F: The Radiation Therapy Oncology Group Scale

Table G: Western Consortium for Cancer Nursing Research Scale

Table H: Oral Mucositis Assessment Scale

Table 1: Describing LLLT Treatment parameters used during the study

Table 2a: Demographic and clinical characteristics of patients in Laser and Placebo group

Table 2b: Site wise distribution of primary cancer in Laser and Placebo group

Table 3: Progression of various mucositis grades between Laser and Placebo group

Table 4: Incidence of mucositis between Laser and Placebo group

Table 5: Odds of developing less severe OM grades between Laser and Placebo group

Table 6: Progression of various Verbal Pain Scores between laser and placebo group

Table 7: Incidence of Verbal Pain Scores between laser and placebo group

Table 8: Progression of various dysphagia scores between laser and placebo group

Table 9: Progression of overall OMWQ-HN Scores between Laser and Placebo group

Table 10: MTS and its associated functional limitations in laser and placebo group

Table 11: Mean quality of life (FACT-HN) scores between laser and placebo group

Table 12: Incidence of various outcomes between Laser(n=55) and placebo(n=55) group
