ACKNOWLEDGEMENTS

At the very outset I wish to record my deep sense of gratitude to Dr. R.K. Poddar, Reader in Chemistry, North Eastern Hill University, Shillong for his inspiring guidance, and constant supervision at each and every stage during the entire period of the present investigation.

I must thank the authorities of the University (NEHU), the Dean of School of Physical Sciences and the Head of the Department of Chemistry for allowing me to use all the available facilities required for my research work.

Thanks are also due to the faculty members of the Department of Chemistry and Physics of NEHU for the courses they taught me and their help in various ways during my Ph.D. programme.

I would also like to acknowledge with thanks the help of Prof. J. Subramaniam for making EPR spectra of the compounds available to me along with valuable discussions on the same. Helpful discussions with Drs. K.K. Chaudhuri, S. Goswami and O.K. Medhi are also gratefully acknowledged.

My deep sense of gratitude is also due to Prof. A. Chakravarty, Indian Association for Cultivation of Sciences, Calcutta and to Dr. V. Shedbalkar, Chemical Physics Group, Tata Institute of Fundamental Research, Bombay for making available magnetic measurements of the compounds to me.

Thanks are also due to Regional Sophisticated Instrumentation Centre, Central Drug Research Institute, Lucknow, for providing me with the analytical data of the compounds.

I take the opportunity to thank Dr. D.T. Khathing, Head, RSIC, and the staff of RSIC, NEHU, Shillong for providing me with IR, $^1$H NMR, UV-Visible spectra and some analytical data of the compounds.
In particular, I thank Mr. E.J. Philip, D. Dey and Dr. T. Basu for their help.

It is also a pleasure to thank my colleagues Drs. M.N. Bhattacharjee, K.P. Sarma, A. Lemtur and Messrs S.C. Sarker, T.N. Saloi, R.L. Gupta, R. Chakravorty, Manish Bhattacharya and H.C. Choudhury for their constant help, co-operation and suggestive criticism throughout the whole Ph.D. programme.

I wish to thank all the members of the non-teaching and Technical Staff of the Department of Chemistry for extending full co-operation to me over all these years.

Thanks are also due to Mr. Sadhu for taking pain in efficiently typing out the thesis and to Mr. A.K. Bhagaboti, Lecturer, Darrang College, Tezpur for helping me in making some drawings of the thesis.

The author gratefully remembers Prof K.K. Bora, Assam Education Service, Mrs. A. Rasul, ex Principal, Handique College, Guwahati and Sri. Banamali Sarma, ex-labour commissioner to Govt. of Assam for their constant encouragement and valuable suggestions that provided an impetus to complete the work.

I would also like to record my sense of gratefulness to University Grant Commission, New Delhi for kindly granting me a teacher fellowship and the authority of Handique Girls' College, Guwahati for granting leave during the period of my work.

Last but not the least, I wish to record a word of thanks to my wife whose untiring help had been a constant source of inspiration during the entire period of the work.
