ACKNOWLEDGEMENTS

It is with the feelings of pleasure that I would like to place the acknowledgements. My heartfelt thanks are due to Prof. Mihir K. Chaudhuri for his guidance, constant encouragement and affection throughout my Ph.D. research.

I feel very happy to acknowledge the help, inspiration and good wishes of all those who bestowed on me during the period of my Ph.D. work. However, it is a formidable task to name them all. I should like to thank all my laboratory colleagues, friends, seniors as well as the Faculty Members of the Department of Chemistry, NEHU.

I am grateful to Dr. Manish Bhattacharjee for magnetic measurements, Prof. K. Wieghardt, Dr. Weyhermüller, Prof. A. Chakravorty, Dr. S. Chattopadhyay and Prof. P. K. Bharadwaj for X-ray structure determination of our compounds.

Thanks are due to the Dean, School of Physical Sciences, NEHU, Head, RSIC, NEHU, and the University authorities in general for permitting me to use all the research facilities. I also wish to thank all the non-teaching staff members of the Department of Chemistry as well as the technical staff of RSIC, NEHU, for their help. Research Fellowships (NET) received from the University Grants Commission, New Delhi, is gratefully acknowledged.

It will remain incomplete if I do not place on record the gratitude to my beloved parents for their blessings, encouragement and support. My profound thanks are also due to all other members of our family which they rightly deserve.
