ACKNOWLEDGEMENTS

I am eternally grateful to Dr. Pramod Tandon, Reader in Botany, North-Eastern Hill University, Shillong, who instilled in me the values and excitement of research, especially with the seeds and Dr. R.S. Tripathi, Professor and Head, Department of Botany, and also to Professor R.R. Mishra, Former Head, Department of Botany and Dean, School of Life Sciences, North-Eastern Hill University, for providing me the departmental facilities.

Many thanks are due to all the research scholars and staff members of the School of Life Sciences, for their kind help and co-operation in carrying out the present study. I am also highly thankful to Dr. T.S. Rathore (Senior Scientific Officer), Dr. J.P.N. Rai (Lecturer, Pachhunga University College, Aizawl), Dr. V. Darlong (Scientist, Z.S.I.) and in particular to my colleagues Dr. S.C. Joshi, Mr. S.K. Sharma, Miss J. Sharma, Mr. A.L.S. Rajee, Mr. B.B. Das and Mr. J.C. Dang.

My sincere thanks to Mr. B.K. Das and Mr. Godfrey Pathaw, for providing the technical assistance to bring this work in the form of thesis.

Financial assistance from the Indian National Science Academy, New Delhi in the form of Junior Research Fellowship and from the Council of Scientific and Industrial Research, New Delhi, in the form of Senior Research Fellowship, is
gratefully acknowledged.

Last, but not the least, I owe my sincere regards to my parents, brother and other family members who inspired me during the course of research.

Shillong
the 29th December, 1986.

(AKHILA NAND VERMA)
