ACKNOWLEDGEMENTS

The author wishes to express his sincerest gratitude and appreciation to Dr. Ather H. Siddiqi for his help and guidance during the progress of research, without which this work would never have come to light.

Special thanks are due to Professor M.A. Basir, Head, Department of Zoology, Professor Gerald Thorne, Dr. J.B. Goodsby and Mr. A.L. Taylor for their help and suggestions during the course of this work.

The author is highly indebted to the University authorities for the award of a Fellowship which enabled him to pursue his studies at the University.
