I wish to express my deep sense of gratitude to Professor M.P. Mahajan for introducing me to the exciting area of research in Organic Chemistry and for his inspiration, guidance, supervision and advice, without which it would not have been possible for me to accomplish this work.

I am grateful to the Head, Department of Chemistry, North-Eastern Hill University for providing the laboratory facilities and the necessary support during the period of research work.

I am highly grateful to the principal, Ms Angel Marbaniang of Lady Keane College, Shillong for her kind permission, endurance and encouragement through the course of this investigation.

I wish to express my very sincere thanks to all my laboratory colleagues for providing the harmonious atmosphere. I am thankful to Dr S.N. Mazumdar and Dr P.D. Barua and I am also highly indebted to Mr A.K. Sharma, Mr Senthil Kumar, Mrs Paramita D. Dey, Ms Upasana Bora, Mr D. Sinah, Mr D. Sengupta and Ms A. Jhunjhunwalla for their generous help and fullest cooperation at every stage of the work.

I am grateful to the RSIC, NEHU, Shillong for recording IR, $^{1}H$ NMR and $^{13}C$ NMR spectra and RRL Jorhat for helping me with Mass spectra.
I also extend my thanks to Mr G. Thomas for his painstaking efforts in meticulously typing the thesis.

I extend my sincere gratitude to my mother and late father, H.N. Mukherjee and other family members for their constant encouragement.
