LIST OF APPENDIX

APPENDIX I  Number of thicknesses of planar and trough cross-beds measured from outcrops in Damodar Valley coalfields.

APPENDIX II  Calculated percentage of lithotypes from borehole logs.

APPENDIX III  Stratal thicknesses between coal seams No. V and VII in eastern part and IV and V in western part of Raniganj coalfield and 'O' and IX in Mahuda basin of Jharia coalfield.

APPENDIX IV  Raw data of planar directional sedimentary structures.

APPENDIX V  Raw data of linear directional sedimentary structures.

APPENDIX VI  Vector mean of trough and planar cross-beds at outcrop level.

APPENDIX VII  Measurements of clast dimensions, their ratios and proposed shape according to Singh's classification.

APPENDIX VIII  Flatness index of the clasts from Jharia, Bokaro and North Karanpura coalfields.

APPENDIX IX  Results of size frequency (number percent) distribution in the Raniganj sandstone of Damodar Valley coalfields.

APPENDIX X  Statistical parameters of size frequency distribution of the Raniganj sandstone.

APPENDIX XI  Modal analysis (in percent) of the Raniganj sandstone.

APPENDIX XII  Recalculated percentages of quartz resistates, feldspar and labile rock fragments.

APPENDIX XIII  Counted number of quartz and feldspar grains and computed quartz-feldspar ratios.

APPENDIX XIV  Counted number of plagioclase and potassic feldspar grains and computed plagioclase-potassic feldspar ratios.
