ACKNOWLEDGEMENT

It gives me an immense pleasure to express my heartfelt gratitude towards my guide Professor Y.K.Agrawal, Director of Research & Director, Gujarat Forensic Sciences University, Gandhinagar. Infact, I feel indebted to him for helping me at my hard time and readily accepted me as a research student for this topic. I express my sense of gratitude towards him for providing guidance and whole hearted support throughout my research including that at critical junctures. I feel indebted to him for having provided constructive criticism of my research efforts while giving continuous encouragement to arrive at fruitful conclusions. He also taught me the worthiness of the purpose of this research and the use to which this research can be put to. Certain suggestions given by him were so thought provoking that it has bent my inclinations towards meaningful derivations so that they can be practically cross checked and validated. The statistical accuracy in the research was ascertained by me due to his sound understanding of the subject.

A special thanks to Dr. J.M.Vyas, Director General of the University and Director, Directorate of Forensic Sciences, Gujarat state who always encourages independent thought and keeps his door open to any science discussion. His involvement with his visionary reflexes has triggered and nourished the department as well as university and exceptionally inspires and enriches my growth as a researcher.
