AC KNOWLEDGEMENTS

It is an honour for me to prepare this thesis under the superb guidance of Professor Dr. Mahbub Hasan, Director, Interdisciplinary Brain Research Center, Jawaharlal Nehru Medical College, A.M.U., Aligarh. I have no words to express my deepest sense of gratitude to this respected and learned Professor for his excellent idea on the latent problem of biological effects of environmental pollution. I owe my special gratitude to him for continued encouragement, pertinent advice, illuminated discussions and devotion of his precious time towards this investigation.

I am indebted to my Supervisor, Dr. Nasreen Hasan Khan, Reader, Department of Chemistry, for his invaluable advice, support and fruitful criticisms throughout this study.

I am highly thankful to Professor Mushtaque Rahaman, Chairman, Department of Chemistry, for his generosity in providing incalculable research facilities. I praise for his affection.

It is my proud privilege to express sincere thanks to my father, Mr. S. Hasar Hasan, Reader, Mechanical Engineering, A.M.U. Polytechnic for his extra diligence and technical expertise in design and fabrication of the "Exposure Chamber", otherwise, this intricate experiment could not be executed. I shall remember his enthusiasm, help and constant inspiration, throughout my life. I greatly appreciate Professor Sabir Raza Khan, Professor of Mechanical Engineering for stimulating ideas during the fabrication of the "Exposure Chamber". I wish to thank Mr. Haqsood Mahmood and Mr. Zabeer Hasan, A.M.U. Polytechnic workshop for their cooperation and assistance in the fabrication of the "Exposure Chamber". I would like to thank technical staff of Mechanical Engineering Section of A.M.U. Polytechnic workshop for the technical abilities in the fabrication of the "Exposure Chamber".
I wish to acknowledge the pleasant cooperation of Professor On Chandra, Professor of Pharmacology, during the course of this study. I must also express my thanks to Drs. S.J. Haider, H.A. Parooqui and M.R. Khan for their encouragement and assistance. I, with deep appreciation, owe my deepest thanks to my colleagues Drs. S. Fatehyab Ali and Pahilul Islam for their assistance and supportive understanding. The timely help of Dr. Sahir Ali Khan is also specifically mention. Mrs. Tayyaba Qadri, constantly encouraged me.

I am grateful to Mr. Abdul Wahed Khan, for expert typing this thesis. I appreciate his patience. Dr. S.C.A. Minhvi, helped with ANOVA aspects.

Mr. F. Mohd. has very kindly drawn the diagram of the "Exposure Chamber".

I am immensely thankful to the Council of Scientific and Industrial Research and Indian Council of Medical Research, New Delhi for the financial aid provided in the form of the Junior and Senior Research Fellowships.

Last but not least, I offer my heartfelt gratitude to my parents, brothers and sister-in-law for encouragement, forbearance and ever-ready help.

S/Saider

(Syed Salem Haider)
