ACKNOWLEDGEMENTS

I avail myself of the opportunity of extending my deep sense of gratitude to Dr. Fasih A. Siddiqi, Reader, Department of Chemistry for his able guidance and encouragement. I am especially grateful to him for his kind and sympathetic attitude which was a continuous source of inspiration during the course of the study.

I am also grateful to Dr. M. Nasim Beg, Lecturer, Department of Chemistry for his perpetual assistance and useful advice during the preparation of this work.

I am largely indebted to Prof. Wasiur Rahman, Head, Department of Chemistry for providing necessary research facilities and also to my research colleagues for their useful co-operation.

In the end, I thank C.S.I.R., New Delhi for the award of fellowship.
