Acknowledgement

First and foremost, I am thankful to Almighty Allah for his blessings that always help me to achieve the objective including the completion of the present Research Report.

It is indeed a matter of pride for me to have completed my Ph.D. work under the guidance and supervision of Dr. Tahira Khaton, Reader, Department of Education, Aligarh Muslim University, Aligarh. No formal words of thankfulness or gratitude can represent my indebtedness to her for invaluable help and scholarly, insightful and critical guidance starting from the formulation of the problem to the final shaping of the research report. I received utmost benefit from her advice and suggestions at each and every stage inspite of her very busy schedule and being overburdened with work. Her extraordinary interest in my specific field of study has been an additional factor contributing to the success of this investigation and my contact with her for the last five years has helped me tremendously in building up a desirable intellectual setup.

I feel short of words to express thanks to Prof. Roqiya Zainuddin Chairman, Department of Education, Aligarh Muslim University, Aligarh, who offered all her possible help, encouragement and inspiration to complete the project.

I would like to place on record my special thanks to Prof. A. Qaiyum, Department of Physics, Aligarh Muslim University, Aligarh, who helped me in the statistical analysis of data. He was cordial enough in making useful suggestions for improvement in interpretation of statistical data.
I feel deeply grateful to Dr. Tabish, Reader, Dept. of Biochemistry, Aligarh Muslim University, Aligarh, whose invaluable advice and critical suggestions have been a potential factor contributing to the successful completion of the present study.

I am thankful to Prof. C.P.S. Chauhan who assisted me in the construction of math achievement test.

I extend my sincere gratitude to Prof. Gulam Dastgir, Prof. Mohd. Miyan from the Department of Educational Studies, Faculty of Education, Jamia Millia Islamia, New Delhi who despite his hectic schedule gave me valuable and critical suggestions from beginning till I completed this project.

I express my heart felt gratitude to Prof. Shaikh Azimuddin, HOD, Faculty of Education, Integral University, Lucknow who cooperated a lot and consistently inspired me for a speedy competition of this work.

I would like to place on record my special thanks to Dr. D.S. Nagi, Former Director of Research, Council for Social Development, New Delhi, who helped me in the statistical analysis of data.

I will fail in my duty if I do not mention the names of my colleagues {Mrs. Fauzia Islam, Dr. Ehtesham Anwar, Mr. Azimur Rehman, Dr. Roli Rai, Dr. Jarrar Ahmad, Mrs. Fauzia Quamar and Akhlaq Ahmad (Lecturers faculty of education, Integral University, Lucknow)} who have moved earth and heaven for helping me in completing this work. I express my hearty thanks to Mr. Sharifuuddin, Mr. Suhail Siddiqui and Mr. Umar Ahamad for helping me in completing this thesis.

Thanks are also to the experts who extended their suggestions to improve and develop the various tests used in the study.

I owe a debt of gratitude to the Principals, Head Masters and Teachers who extended their full co-operation and support during the
process of data collection. All these people deserve to be mentioned by
name but the lack of space restricted me to name them one by one. In
addition the students upon which tests were administered need special
thanks for their co-operation.

I am also thankful to the librarians and other staff members of
Moulana Azad library and Department of Education Library of A.M.U.
documentation centre for all their cooperation and helps.

I will fail in my duty if I ignore to pay thanks to the Abudi
Business Centre for such a nice typing and Xeroxing.

I express my heart felt gratitude to my B.Ed. and M.Ed. students
(especially Mr. Gyan Pratap Singh and Mr. Shivendra Pratap), Integral
University, Lucknow, who cooperated a lot and consistently inspired me
for a speedy competition of this work.

Last but not least I can not afford to forget to express my
indebtedness and gratitude to my father, mother, brother, sister and my
wife. During the course of the study I had to unfortunately neglect some
of my duties towards them. But they did not complain or show even the
slightest grudge or regret; on the contrary they always remained a source
of inspiration and support.
