ACKNOWLEDGEMENT

I thank Almighty God for providing me with the opportunity to do this research.

My sincere appreciation goes to Dr. Jamal A Farooquie, Professor, Department of Business Administration, Aligarh Muslim University (AMU), Aligarh (India) for his patience and sympathetic guidance during the entire course of research.

I would like to express my gratitude to Prof. Javaid Akhter, Dean, Faculty of Management Studies and Research, and Prof. M Khalid Azam, Chairman, Department of Business Administration, for their constructive instructions and support. All my friends in India and Iran who did extend their support and help during the work also deserve a vote of thanks. I am also thankful to the librarian in the department and my typist.

A special and sincere word of thanks to my mother, and wife Mrs. Farzaneh Teimoury, who provided me with the inspiration to do this research. I dedicate this work to my children, Amir Mohammad and Farnaz as they had to sacrifice a lot during my absence from the home for pursuing the PhD. Many thanks to my father, Late Mr. Shaban H Gorji, my brothers, Late Dr Sadegh, and Late Er. Ali H Gorji for their support throughout my life. I express my indebtedness to my in-laws for providing my wife and children with emotional support during the period of my absence from Iran.

Last but not the least, thanks are due to the governments of the two great nations India and Iran, the Mazandaran Medicine University, Iran, and the Aligarh Muslim University, India. It is through their mutual cooperation that I could take up and complete this research work.

Ali Morad Heidari Gorji
December, 2010.
