ACKNOWLEDGEMENTS

In the name "Allah, The Most Gracious and Merciful" I bow my head in reverence whose benign benediction gave me the required zeal for the completion of this endeavor.

I feel a great pleasure and honor to express my heart full gratitude to my worthy research guide Dr. Abdul Malik, Chairman, Department of Agricultural Microbiology, Aligarh Muslim University, Aligarh for his competency, supervisory intellect and sympathetic attitude throughout the course of this research endeavor. His intelligible dissemination of knowledge gained through vast experience, helped me to understand the Science of Microbiology. His caring attitude and friendly behavior is beacon of guidance for my whole life. The completion of this research work would have been a dream for me without his consistent motivation and help.

I feel gratified to Prof. Farzana Alam, the Dean, Faculty of Agricultural Sciences, AMU, Aligarh, for her support and cooperation during my research program.

My special thanks also go to Dr. M.Q. Ansari, Scientist, Central Pollution Control Board, Ministry of Environment & Forests, New Delhi, India for providing the Gas chromatography facilities.

It is a matter of pleasure to extend my sincere thanks to Dr. Elisabeth Girohmann, Professor, Technische University at Berlin, FG Umweltmikrobiologie/Genetik, Franklinstrasse Berlin Germany for providing constant support and valuable suggestions. Special thanks are due to Prof. Javed Musarrat, former chairman, Department of Agricultural Microbiology, Aligarh Muslim University for his kind co-operation. I would like to express my deep thanks to the teachers, Dr. Iqbal Ahmad, Dr. Saghir Khan, Dr. Almas Zaidi, Department of Agricultural Microbiology Aligarh Muslim University.

I would like pay my humble thanks to Mr. Jazafur Rahman Khan, Ms. Shaba Qamar Ansari, Zirar Bhai, Waheed Bhai, Rizwan Bhai, Amber Bhai, Adil Bhai, Sufi Ji, Sultan and Sanjay for their social and moral help. I am also indebted to Bushra apa and Darakshan apa who issued me the required books and journals promptly without delay on my every humble request during the Ph.D. Program.

I am grateful to my seniors Dr. P. A. Wani, and Dr. Imran for their warm cooperation and help. I want to pay my special thanks to my senior Dr. Ikram Ansari for his moral support, encouragement, and experimental help. I cannot forget to mention the name of my friend as well as senior Dr. Munees Ansari who gave me the reason to smile and helped me with his best efforts during my work. I am grateful to our colleagues and juniors Maryam, Sajjad Bhai, Jafrahana, Owais, Fadad, Ees, Mashiur Rehman, Mreesh, Shahbaz, and my hostel friends Saba Nawaz, Huma Naz, Asma Naz, Heena
Naz, Suhaliya and Anam for being nice and cooperative and creating loving environment.

I can never express my feelings of thanks and love to the soul of my father, Mr. Nasiruddin Ansari for his everlasting prayer for me to fulfill his desire and dreams in the form of completion of my studies. My acknowledgement could never adequately express obligation to my affectionate Mother, Mrs. Ahmadi Khatoon for her encouragement and inspiration, her moral and practical support and prayers for my success which are supporting to achieve higher ideals of life.

I am also thankful to my Brother-in-Law, Mr. Mohd Arshad for his cooperation during sample collection, Chinhat industrial area, Lucknow, and his support as a guardian during my entire period of Ph. D. My very special thanks is to my brother-in-laws, Shahid Bhai, Jameel Bhai, Noorul Bhai and Arshad Bhai for their kind and everlasting help during all my life and for their love and encouragement, who always wished to see me glittering on skies of success and I am also thankful to my sisters, Saba Bano, Shaista Anjum, Shaqfiya Anjum, Darakshan Anjum and Kahkashan Anjum and Sultana who provided their constant support, affection, encouragement and their prayers always stood by me.

I feel blessed to have friends like Dr. Shahida Akhtar, Dr. Sumi Khare, Dr. Krishna, Naz Akhtar, Umme Hani, Asifa Parveen, Safiya, Naheed, Meena and Madhuri Das who have always been there to make me comfortable.

I want to pay my special thanks to my only brother Mohd Faheem Nasir, my nephew Mohd Faraz Ahmad, brother-in-law, Dr. Saghir Ahmad Ansari and my sisters Mohammadun Nisa, Bahreena Trim and Najma Sultan for their Golden help and encouragement. They became a source of inspiration and motivation for the completion of my research work.

I am thankful to University Grants Commission for providing financial assistance during this research work.

I indebted to all those to whom I forgot to mention, who were supportive throughout my Ph. D. program.

Reshma Anjum
