LIST OF TABLES

2.1 Status and area of the study sites

2.2 Number of samples for each transect

3.1 Bird species diversity/richness in Winter

3.2 Bird species diversity/richness in Summer

3.3 Densities of birds per hectare in different sites (Transects)

3.4 Number of species in each guild for all study sites

3.5 Spearmans’ rank correlation coefficients between bird species diversity and bird species richness with habitat variables for Winter

3.6 Spearmans’ rank correlation coefficients between bird species diversity and bird species richness with habitat variables for Summer

3.7 Flock characteristics for all Transects

3.8 Frequency of occurrence of species recorded in Mixed Foraging Flocks
