ACKNOWLEDGEMENT

I am highly obliged to my guide, Dr. S. Herbert Baskaran, Associate Professor, Alagappa University College of Education, for suggesting this problem and rendering valuable guidance and encouragement throughout the course of this work. It is due to his incentive, constructive criticism and scientific directions that this work has taken its present shape.

I am very grateful to Dr P. Prema, Dean and Head of the Department of Education, Alagappa University, for her moral support.

I thankfully remember the valuable and timely help offered by Dr R. Krishnaraj, Professor, Dr P. Paul Devanesan, Associate Professor, and Dr A. Selvan Asst Professor to make this a successful work.

I am much beholden to Dr R. Ravanathan of Presidency College, Chennai for doing the computerised calculation in time.

I express by deep sense of gratitude to the principals and students of B.Ed colleges for their sincere cooperation.

My sincere thanks to Mr Francis Nellikunnel for availing the computer laboratory and rendering all sorts of support and cooperation during the entire course of this work.
My sincere thanks to Ms Princy George for typing this work neatly and in time.

I fondly remember the constant support and encouragement of my wife, Kochurani, and children, Gloria and Leo.

Finally, I thank each and everyone who directly or indirectly helped me to complete this work.
