ACKNOWLEDGEMENTS

I take this opportunity to express my deepest sense of gratitude to my supervisor, Dr. J.P. Srivastava for his able guidance, sincere supervision and constant inspiration during the progress of this work. His numerous suggestions, great interest and valuable criticism of my work have been a continuous source of encouragement.

My sincere thanks are due to Chairman, Department of Physics for providing me all possible facilities in the Department.

I am indebted to Prof. M.Z.R. Khan for his role in providing me the opportunity of pursuing higher studies at A.M.U. and for the constant encouragement and help he has been very kindly extending all these years.

The help and hospitality extended to my supervisor by Prof. Geick, Institute of Physics, University of Würzburg, F.R.G in connection with the measurements of reflectance spectra at his laboratory deserves my sincerest thanks. I am thankful to Dr. Kamal Kumar, Department of Physics, North-Eastern Hill University, Shillong for permitting me to record Raman spectra in his
The timely assistance from Dr. T.K. Gundu Rao is also appreciated. My thanks are also due to Dr. A.V.R. Warrier, Scientist, Solid State Physics Laboratory, Delhi for discussion and help at times for measurement of infrared spectra at his laboratory.

My special thanks are due to Miss. Poonam Agrawal, Programmer, Computer Centre, A.M.U. for introducing me to computer programming and helping throughout the course of this work.

I feel sincerely indebted to all my well wishers and friends whose encouragement and pleasant association has helped me to stand these years.

The technical assistance from the staff of the Department is appreciated. Financial support from CSIR, New Delhi is gratefully acknowledged.

Finally, I would like to take this occasion to thank my parents, parents-in-law and my husband for their tremendous patience and encouragement without which I would have failed to shape my work to the present form.

(ASITA KUSHRESHTHA)
