ACKNOWLEDGMENT

I wish to express my sincere and earnest thanks to Dr. M.A. Syed, Reader in the Department of Psychology, Aligarh Muslim University, Aligarh, whose valuable guidance was availed at every stage of this investigation. The deep concern and the meticulous care he has taken in going through the dissertation is worth appreciating. He was of great help throughout the entire course of the investigation. His deep critical understanding of the problem and apt advice helped me to approach it with zeal and courage.

A special word of gratitude is due to Professor A. Ansari, Head of the Department of Psychology, Aligarh Muslim University, Aligarh, for providing all the facilities to complete this work.

I am thankful to Dr. S. Sultan Akhtar, Reader, for rendering timely help in statistical portion. I am thankful to Mr. M.A. Raz for his typing work and to all those who helped me to complete this work.

Last, but not the least, the investigator wishes to thank his wife Pravina Vimal, without whose patience and encouragement during the many long months this study was in the making, it would have been impossible to finish the work.

The investigator also wishes to acknowledge his indebtedness to the authors of the many books he has freely consulted in the preparation of this work.

20th June, 1976
