ACKNOWLEDGEMENTS

I wish to express my gratitude to the late Professor M.A. Basir Khan and Professor S. Mashhood Alam respectively the past and present Head of the Department of Zoology, Aligarh Muslim University, Aligarh, for providing the best possible facilities to carry out the present piece of research work. I am especially grateful to Professor S.M. Alam for his constant encouragement and constructive criticism during the tenure of this work and in the preparation of the present manuscript.

I am greatly indebted to Dr. Muntaz Ahmad Khan whose guidance and supervision enabled me to present this thesis. His keen interest and valuable suggestions are most gratefully acknowledged.

I am also thankful to Dr. (Mrs.) Nishat Jameel Iqbal of the Department of Pharmacology, J.N. Medical College, A.M.U., Aligarh and to the fellow researchers of the Department of Zoology, A.M.U. who extended their best cooperation and assistance in various ways. My thanks are due to Mr. Saeedul Hasan, Photo-artist, who helped me in photomicrography.

Finally, I am thankful to the Department of Social Welfare, Ministry of Education, Government of India, for their financial assistance.
