ACKNOWLEDGEMENTS

I am greatly indebted to Dr. A. Nayyum Siddiqui under whose supervision the work was done. I am also thankful to Prof. S.M. Alam, Head, Department of Zoology, for his constant interest and encouragement in the work and for providing the necessary facilities for the completion of the work. Thanks are also due to Ministry of Education, New Delhi, for providing financial help, and to Dr. Jamil A. Khan and the Research Scholars of this laboratory who helped me during the course of this work.
