Acknowledgements i-ii
List of Tables iii-vii
List of Figures viii-xii
List of Plates xiii

CHAPTER I
INTRODUCTION
1.1 Study Area
1.2 Objectives of the Study
1.3 Hypotheses
1.4 Data Base and Methodology
1.5 Data Processing and Analysis
1.6 Organization of the Study
1.7 Review of Available Literature

CHAPTER II
CONCEPTUAL AND METHODOLOGICAL FRAMEWORK OF FOOD SECURITY AND RURAL DEVELOPMENT
2.1 Some Definitional Issues of Food Security
2.2 Concept of Food Security
2.3 Measures of Food Security
2.4 Concept of Rural Development
2.5 Measures of Rural Development

CHAPTER III
GEOGRAPHICAL PROFILE OF THE STUDY AREA
3.1 Structure and Relief
3.2 Drainage system
3.3 Soil
3.4 Climate
3.5 Irrigation
3.6 Land Use Pattern
3.7 Cropping Pattern
3.8 Population
3.9 Per Capita Income

CHAPTER V
REGIONAL TREND OF AREA, PRODUCTION AND YIELD OF FOODGRAINS AND CASH CROPS
4.1 Foodgrains: Trend and Pattern of Distribution
4.2 Cereals: Trend and Pattern of Distribution
4.3 Wheat: Trend and Pattern of Distribution
4.4 Rice: Trend and Pattern of Distribution
4.5 Barley: Trend and Pattern of Distribution
4.6 Maize: Trend and Pattern of Distribution
4.7 Pulses: trend and pattern of distribution
4.8 Cash Crops: Trend and Pattern of Distribution

CHAPTER IV
FOOD SECURITY

5.3 Trend and Spatial Distributional Pattern of Food Availability
5.1.1 Foodgrains Availability
5.1.2 Caloric Availability
5.1.3 Livestock Availability
5.1.4 Regions of Food Availability

5.2 Trend and Spatial Distributional Pattern of Food Stability
5.2.1 Foodgrains productivity
5.2.2 Storage Capacity
5.2.3 Public Distribution System
5.2.4 Regions of Food Stability

5.3 Trend and Spatial Distributional Pattern of Food Accessibility
5.3.1 Purchasing Power
5.3.2 Employment
5.3.3 Literacy Rate
5.3.4 Regions of Food Accessibility
5.4 Regions of Food Security

CHAPTER VI
RURAL DEVELOPMENT

6.1 Spatial Analysis of Agricultural Development
6.1.1 Net Sown Area
6.1.2 Irrigation Facilities
6.1.3 Fertilizer Consumption
6.1.4 Cropping Intensity
6.1.5 Land Holdings
6.1.6 Regions of Agricultural Development

6.2 Spatial Analysis of Industrial Facilities
6.2.1 Regions of Industrial Development

6.3 Spatial Analysis of Infrastructure Facilities
6.3.1 Educational Facilities
6.3.1.1 Literacy Rate
6.3.1.2 Schooling Facilities
6.3.1.3 Health Amenities
6.3.1.4 Regions of Educational Development

6.3.2 Transport and Communication Facilities
6.3.2.1 Communication
6.3.2.2 Transportation
6.3.2.3 Regions of Transport and Communication Development
6.4 Spatial Analysis of Power Sector Facilities
   6.4.1 Electrification
   6.4.2 Consumption of Electricity
   6.4.3 Regions of Development in Power Sector
6.5 Spatial Analysis of Banks and Co-operative Markets
   6.5.1 Regions of Development of Banks and Marketing
6.6 Regions of Infrastructure Development
6.8 Regions of Rural Development

CHAPTER-VII

FOOD SECURITY VIS-À-VIS RURAL DEVELOPMENT

7.1 Food Availability and Rural Development
7.2 Food Stability and Rural Development
7.3 Food Accessibility and Rural Development
7.4 Food Security and Rural Development
7.5 Dimensions of correlation and levels of significance between food security and rural development

CHAPTER-VIII

FOOD SECURITY AND RURAL DEVELOPMENT – A HOUSEHOLD LEVEL STUDY

8.1 General Profile of the Sampled Villages
8.2 Socio-Economic Structure
8.3 Cropping Pattern
8.4 Food Security
   8.4.1 Foodgrains Availability
   8.4.2 Caloric Availability
   8.4.3 Livestock Availability
   8.4.4 Foodgrains productivity
   8.4.5 Public Distribution System
   8.4.6 Employment structure of the household members
   8.4.7 Purchasing Power
   8.4.8 Literacy Rate
8.5 Rural Development
   8.5.1 Size of Land Holding
   8.5.2 Agriculture Land use Pattern
   8.5.3 Sources of Irrigation
   8.5.4 Fertilizer Consumption
   8.5.5 Type of Farming
   8.5.6 Levels of Educational Attainment
   8.5.7 Housing Condition
   8.5.8 Water supply condition in household of the respondents
   8.5.9 Electricity Consumption
